REORGANIZATION OF THE COMMUNITY TRAILS COMMITTEE

1. Election of Chairman and Vice Chairman for 2021-2022.

Community Development Director Mainez gives an overview of the Brown Act and opened the floor for nominations for the seat of Chair and called for a vote from the members.

Member La Chausse nominated member Novak for the seat of Chair. All members agreed with the election of member Novak to the seat of Chair. Vote passed 5-0.

Community Development Director then turned the election for Vice Chair over to Chair Novak.

Chair Novak nominated member La Chausse for the seat of Vice Chair. All members agreed with the election of member La Chausse to the seat of Vice Chair. Vote passed 5-0.

The election for Chair and Vice Chair was closed by Chair Novak.

CONSENT CALENDAR

2. Minutes from the March 12, 2020 Special Meeting.

A MOTION was made by Member La Chausse, seconded by Member Bowman, to approve the minutes as submitted. Motion carried on a roll call vote, 5-0.

BUSINESS ITEMS

3. Roles and Responsibilities

Community Development Director presented the staff report.

Member Merideth asked how many duties were removed when the change was made within the last couple years to take responsibility from the trails committee and put it into the Planning Commission? Were there other roles and responsibilities removed from this list that you have?

Community Development Director Mainez stated in terms of policy and creating those maps, the Planning Commission will focus with trails when they deal with new development. Your responsibility as the committee is mostly maintenance and getting the public out there to participate in our trails and then receive feedback if anything is damaged and needs replacing.

Member Novak stated maybe that can be an agenda item regarding maintenance and where we are spending our money and budget. Is that possible for next time?

Community Development Director Mainez stated that is a good suggestion. In fact, I'll be starting the budget process very soon and once I do that, I will figure out a timetable to come and present to you.

4. Dennis Johnson Memorial

Associate Planner Quintanilla presented the staff report.

Member Merideth stated back when I was on before the problem was that the land was privately owned, but it sounds like that is not the issue anymore. The city now has the land to do the trail, but it's technically difficult due to cost is what it sounds like.

Community Development Director Mainez stated that is a great question, but at this time we do not have the answer. This is more of a receive and file. We just want to honor Dennis Johnson and show he was appreciated as a member of the Community Trails Committee.

5. Update on the Recreational Trails Grant (Natural Parkland Trail)

Associate Planner Quintanilla presented the staff report.

Community Development Director Mainez stated we were very instrumental and fortunate to receive this grant of \$1.5 million. We were happy to get the funding. It is going to take a couple of years to get to a point where this is finished, but Associate Planner Quintanilla is going to bring parts and pieces to you for input. We will be bringing back educational signage, Amphitheater, and the location of the new trail alignments that connect a couple of trails. Again, this is all within our general plan policy area, so there's really nothing that we need to take back to the Planning Commission.

Chair Novak asked do we have an estimated start date?

Associate Planner Quintanilla stated not at this time. We are still working with the State to finish documentation.

Community Development Director Mainez stated I think we have till September to finish up most of what the State is asking. After September that we can start looking at construction contracts and possibly early next year we will be brining exhibits and materials related to construction.

Member Merideth stated this is terrific, I really appreciate it. What happens to the existing markers that are there? Are they going to be replaced?

Associate Planner Quintanilla stated eventually the existing markers depending on what the community decides to do, either replace them to something newer or keep it to the historic design that they have already.

Member Novak stated ok, there will be graffiti and they get defaced and perhaps going forward be able to maintain them, because I know several trails, we see that.

Associate Planner Quintanilla stated we will be using the graffiti coding on top of that.

Community Development Director Mainez stated building parks and trails is a wonderful thing when you have the resource. It is that long term maintenance that comes afterwards that that's the problem, and that's why when we go through the budget cycle, we are replacing some of these signs currently. It is one of those things I will be looking at. We will be looking at a different material something like metal or another type.

Member Merideth asked what the bench exists where the trail ends to the furthest point that loops around from the green back to the yellow is?

Community Development Director Mainez stated no, it should loop around and connect at the top. We want to put a connection, but we did not want to be too specific, so we just did the switch back.

Member Merideth stated ok, so that switch back in not necessarily the final.

Community Development Director Mainez stated we just want to try to get some additional lineal footage.

Member Merideth stated with the educational perennation area, there has been limitations of what can be done to a natural area. Was there a rough idea of what that would include? Would there be shade of any kind be allowed?

Community Development Director Mainez stated it does and it does not. We visited the site and there was a tree there so perhaps we can incorporate trimming that tree and try to preserve it for some shade. We do not want to put too many permanent structures up there that we would have to maintain long term.

ANNOUNCEMENTS

Associate Planner Quintanilla discussed continuing Trails Day Planning discussion in future meetings.

ADJOURN

There being no further business, Chair Novak declared the meeting adjourned at 8:02 P.M.

PREPARED BY: Angela Tafolla, Assistant Planner

SUBJECT: Update on the Recreational Trails Program Grant (RTP)

RECOMMENDATION: Staff recommends the Community Trails Committee (CTC) receive and file Staff's presentation on the RTP Grant.

PUBLIC NOTICE: As required by City Council Resolution, notice of the CTC's meeting was posted at the City's three (3) designated posting locations within the City. In addition, the agenda was posted on the City's website. No further notice is required.

BACKGROUND/UPDATE:

Recreational Trails Program:

On February 11, 2021, Staff informed the CTC that a grant application submitted to the State of California Department of Parks and Recreation was selected for funding by the Department on September 25, 2020. The grant funding was for \$1.5 million to be used to renovate the 'City's Natural Parkland Trail' by constructing new erosion control methods, construct new trails, rehabilitate the existing trail, provide connectivity with adjacent trails, and installation of new interpretive signs and environmental learning facilities.

The funding is contingent on the City completing the following three (3) federal post-application requirements.

1. Compliance with the National Environmental Policy Act (NEPA) and documentation.
2. Completion of the National Historic Preservation Act of 1966 documentation, and
3. Listing of the project on either the State Transportation Improvement Plan (STIP) or a local Transportation Improvement Plan (FIP), as applicable.

On August 17, 2021, the City completed the required Preliminary Environmental Study (PES) and submitted to CALTRANS as required under Item 1 above. CALTRANS is the agency responsible for administering funds from the California Department of Parks and Recreation.

The Historic Preservation documentation was provided to CALTRANS for consideration as required under Item 2 above. It is anticipated CALTRANS will determine there is no impacts since the proposed project will protect and preserve existing flumes and rock wall from the past citrus farming within the City's Natural Parkland.

On May 31, 2021, the proposed project was included in the local Transportation Improvement Plan (TIP) as required under Item 3 above. The local agency responsible for implementing the local TIP is the San Bernardino County Transportation Authority (SBCTA).

Next Steps:

Once the State of California Department of Parks and Recreation and CALTRANS sign off on the federal post-application requirements, the City will receive a formal contract/agreement related to the RTP Grant. Staff anticipates receiving the RTP Grant contract/agreement soon. Once the contract is executed the project can begin construction and the City can request reimbursements from the State.

The City's Landscape Architect (Community Works Design Group) was selected to assist the City with related environmental work and design services.

The CTC will play an important role in the project by providing comments and recommendations on the environmental interpretative stations, seating areas, and other unique user experience items along the existing and realigned trail. Attached for the CTCs information is an exhibit illustrating the proposed improvement (Attachment 1).

Staff will provide more details and potential schedule at the meeting.

PREPARED BY: Angela Tafolla, Assistant Planner

SUBJECT: Update on the Highland/Redlands Regional Connector Project (bikeway/trail along Orange Street between City of Highland and City of Redlands)

RECOMMENDATION: Staff recommends the Community Trails Committee receive and file Staff's update on the Highland/Redlands Regional Connector Project and provide comments as appropriate.

PUBLIC NOTICE: As required by City Council Resolution, notice of the CTC meeting was posted at the City's three (3) designated posting locations within the City. In addition, the agenda was posted on the City's website. No other notice is required.

BACKGROUND/UPDATE: As the Community Trail Committee is aware, the City of Highland and City of Redlands have collaborated to construct a new 4.7 mile long bikeway/trail (generally along Orange Street) from Arroyo Verde Elementary School in Highland to Citrus Valley High School in the City of Redlands.

The overall project is estimated to cost \$4.6 million. The City of Highland has retained a portion of the required funding to construct the planned bikeway/trail to improve recreational opportunities and improve safety for vehicles, pedestrians, and bicyclist. The funding sources include:

Federal Active Transportation Program (ATP) Grant	\$3,635,575
State TDA Article III Grant	\$702,562
City of Highland	\$180,380
City of Redlands	\$111,387

Both cities have been consulting with the US Fish & Wildlife Services (USFWS) and the California Fish & Wildlife Service (CFWS) to obtain the required environmental clearance prior to construction. Unfortunately, there has been some significant setbacks as it relates to the consultation efforts with both USFWS and CFWS agencies. The environmental mitigation requirements being imposed by the two resource agencies are significant and could potentially derail the project. A Federal Endangered Species Act Take Permit is required by USFWS to mitigate temporary construction and permanent impacts to the San Bernardino Kangaroo Rat. The USFWS has determined the impact ratio to be 1 to 1, which equates to approximately \$1 – 2 million. However, CFWS has not officially listed the San Bernardino Kangaroo rat as an endangered species within the California Endangered Species Act, but has determined the impact ratio to be 4 to 1, which equates to approximately \$6.4 million. Both cities are exploring options that may help keep this important project moving forward.

Staff will provide more detail at the meeting. Attached for the CTC's information are exhibits illustrating the proposed project alignment and improvements (Attachment 1).

SUBJECT: 2022 Citrus Harvest Festival

RECOMMENDATION: Staff recommends the Community Trails Committee (CTC) Members select attendance time slots for the 2022 Citrus Harvest Festival to assist in promoting the Trails Day Event and to address the public about the City's trails system.

PUBLIC NOTICE: As required by City Council Resolution, notice of the CTC's Meeting was posted at the City's three designated posting locations within the City. In addition the Agenda was posted on the City's Website. No further Notice is required.

BACKGROUND: The 2022 Citrus Harvest Festival is scheduled for March 26. Historically members of the CTC have volunteered their time to represent the CTC at the booth and promote the Community Trails Day Event and other activities and efforts of the CTC.

The event lasts approximately eight (8) hours and is divided into two (2) four-hour shifts. The morning shift (8:00 AM to 12:00 PM) is generally responsible for set-up, arranging the booth and greeting the morning visitors. The afternoon shift (12:00 PM to 4:00 PM) is expected to cover the latter hours of the event and breaking down the booth.

Please be prepared to select a time slot to represent the CTC during the Citrus Harvest Festival and discuss how else this event can be promoted such as a booth activity.

SUBJECT: Santa Ana River Wash Trail Plan MOU

RECOMMENDATION: Staff recommends the Community Trails Committee (CTC) hear staff's update on the Santa Ana River Wash Trail Plan MOU.

PUBLIC NOTICE: As required by City Council Resolution, notice of the CTC's meeting was posted at the City's three designated posting locations within the city. In addition, the agenda was posted on the City's website. No further notice is required.

BACKGROUND/UPDATE: The Wash Plan HCP is a regional land use concept that permits and relocates a series of sand and gravel mining lease areas to locations adjacent to existing mining and creates a habitat reserve per the requirement of these permits for a number of regional land use projects, called "Covered Activities". The Wash Plan HCP has received federal approval and is in process for permits from the California Department of Fish and Wildlife. The Conservation District is implementing the Wash Plan HCP to allow development, expansion, and maintenance of facilities for both municipal and commercial entities within the Wash, including those of the City, while providing protected habitat for multiple Federal and State protected species that are found within the Wash.

The District's implementation of the Wash Plan HCP is now proceeding to a point where trails development can begin. Towards that end, the District has prepared, and City staff and City Attorney have reviewed, a "Memorandum of Understanding Regarding Planning and Funding for the Santa Ana Wash Wildland Trails" ("Trails MOU"), which was approved by City Council at its January 11, 2022 meeting. The same Trails MOU document will be considered and is expected to be approved by the City of Redlands City Council in February.

Staff will provide additional details at the meeting.
